

NOTICE OF WATER UTILITY FEE REFUND

Tahsis residential and commercial water utility customers may be eligible for a partial refund for 2016 and 2017 water fees

Tahsis Council has approved refunding the difference between the “flat rate” and “meter rate” to residential and commercial customers who paid the flat rate but were eligible for the meter rate in 2016 and 2017. For residential customers, this refund will be \$108.00 for each year.

Refunds will be credited to each “flat rate” customers’ property tax account within the next few months.

“Flat rate” customers who prefer to receive a cheque for their refund have until December 15, 2017 to request a cheque. Only customers whose tax accounts are fully paid up are eligible to receive a cheque. Otherwise, the refund will be credited to their property tax account.

To request a refund cheque, please contact the Village Office.

Council recently adopted an amended Water Rates and Regulations Bylaw which eliminates the water meter fee.
