

## **Volunteers Needed for the Village Water Meter Project**

We are seeking up to 34 residential and commercial property owners who are willing to have a water meter installed at their curbstops.

The purpose is to collect water consumption data from a sample of properties to assist the Village in managing its water utility.

There is no cost to property owners and there is no change to water utility rates for those property owners who have a meter installed. Only properties with visible curbstops and other requirements will be selected.

The meters will be installed this summer and fall.

Installations will be carried out safely by a certified contractor and with minimal disruption to property owners.

If you are interested and want to learn more please contact the project manager Lisa Kristiansen

**Lisa's contact information:**      Email: [kristiansen.l@shaw.ca](mailto:kristiansen.l@shaw.ca)

Phone: (778)223-5229

- ♦ **Lisa will be in Tahsis from July 20<sup>th</sup> thru 22<sup>nd</sup>. You are welcome to set up an appointment with Lisa if you prefer to meet with her in person.**
