

## **Zoning Bylaw amended to permit home-based businesses**

Tahsis Council has adopted an amendment to the Village zoning bylaw permitting “home based businesses” to operate in residential zoned areas. The amended bylaw is now consistent with “home businesses -cottage industries” policy in the Official Community Plan. The bylaw was adopted after public consultation which included a public hearing held on February 21<sup>st</sup>.

Home based businesses must comply with regulations regarding size, parking, noise, odor and other criteria. The bylaw also amends the definition of “professional occupation” and adds regulations to this use. Business licences are not required in Tahsis.

The bylaw is posted on the Village website at:
