

Dear Sir or Madam,

The Village is updating its Official Community Plan and we want to hear from you.

The Official Community Plan (OCP) is the long-term vision for Tahsis which sets the direction for land use, community facilities, infrastructure and the environment. The OCP is used to manage growth and development and it directs other municipal plans like the Village's financial and capital plans and bylaws.

Since the OCP reflects the long-term vision and the values of Tahsis, it needs input from everyone who lives here whether year-round or seasonally. We have prepared this survey so you can have your say in the future of Tahsis.

The survey was developed by our lead consultant, Erica Tiffany, RPP, with McElhanney Ltd. and reviewed and approved by the OCP Advisory Committee composed of Councillors Bill Elder and Josh Lambert and residents Tony Ellis, Santosh Sharma, Aubrey Stewart and Robbie Carey. As Mayor, I chair the Advisory Committee.

Please complete the survey by **June 7th** and return in the enclosed envelope or scan and email it to:
reception@villageoftahsis.com

In the coming weeks you will be able to find information about this project on the Village website. Later this summer, we will hold a community workshop which will be a further opportunity to express your views about our community's long-term plan.

We look forward to hearing from you!

Sincerely,

A handwritten signature in black ink that reads "Martin Davis". The signature is written in a cursive, flowing style.

Mayor Martin Davis
