

AGENDA

Agenda for the Regular Meeting of the Tahsis Village Council
to be held on **October 1, 2019** in the Council Chambers
Municipal Hall, 977 South Maquinna Drive

- A. Call to Order**
- B. Introduction of Late Items**
- C. Approval of the Agenda**
- D. Petitions and Delegations** **None.**
- E. Public Input # 1**
-
-
- F. Adoption of the Minutes** **1 Minutes of the Regular Council meeting held on September 17, 2019**
- G. Rise and Report** **None.**
- H. Business Arising** **1 Nootka Sounder Advertising- 2020 Rate Sheet**
- J. Council Reports** **1 Mayor Davis**
2 Councillor Elder
3 Councillor Fowler
4 Councillor Llewellyn
5 Councillor Lambert
- K. Bylaws** **None.**
- L. Correspondence** **1 Letter from Judy Burgess to Hon. Doug Donaldson, Minister of Forests, Lands, Natural Resource Operations and Rural Development.**

2 Letter from Andy Rasimas, WiMacTel Canada Inc Re: Charge-a-call Payphone Removal (250-934-9385)

M. New Business

1 Report to Council Re: Joint Initiative with Nootka Sound RCMP - Positive Ticketing Program

2 Report to Council Re: UBCM Community Emergency Preparedness Fund - Volunteer & Composite Fire Department Training & Equipment

N. Public Input #2

P. Adjournment

Minutes

Meeting	Regular Council
Date	17-Sep-19
Time	7:00 PM
Place	Municipal Hall - Council Chambers

Present

Mayor Martin Davis
 Councillor Bill Elder
 Councillor Sarah Fowler
 Councillor Lynda Llewellyn

Regrets

Councillor Josh Lambert

Staff

Mark Tatchell, Chief Administrative Officer
 Janet StDenis, Finance & Corporate Services Manager

Public

4 members of the public

A. Call to Order

Mayor Davis called the meeting to order at 7:00 p.m.
 Mayor Davis acknowledged and respected that Council is meeting upon Mowachaht/ Muchalaht territory

B. Introduction of Late Items and Agenda Changes

3 late correspondence items: "L6": Tahsis Community Garden Society Re: Composting Pilot Program; "L7" District of Sicamous Re: Letter of Support for Off-Road Vehicle Management Framework; "L8" District of North Saanich Re: UBCM Reception Sponsored by the Government of China.

C. Approval of the Agenda

Fowler/Elder: VOT 409/2019

THAT the Agenda for the September 17, 2019 Regular Council meeting be adopted as amended.

CARRIED

D. Petitions and Delegations

None.

E. Public Input # 1

A member of the public had several questions for Council regarding the Community Unity Trail to which Council responded.

F. Adoption of the Minutes

1 Minutes of the Regular Council meeting held on September 3, 2019

Llewellyn/Fowler: VOT 410/2019

THAT the Regular Council meeting minutes of September 3, 2019 be adopted as presented.

CARRIED

G. Rise and Report

None.

H. Business Arising

None.

J. Council Reports

Mayor Davis (verbal report)

I will speak to a couple of things. The Coast Guard project is proceeding and apparently next week they will start construction.

I am attending the UBCM convention next week along with Councillor Llewellyn. We will be meeting with various ministers about the state of the road, community forest, the possible funding for a senior facility here in town and numerous other issues. We have plenty of meetings to attend. I am really looking forward to that and to networking with municipalities from across the province.

Recent events with the road to Bamfield and the deaths of the University of Victoria students and injury of many others has drawn attention to the state of rural access roads to small communities across BC. Just this morning CBC interviewed Lori Bennett to talk about the state of our road. Councillor Fowler was also interviewed on CBC and then I did an interview with CBC. Then Dean Stoltz, a CHEK 6 News reporter, came to Tahsis and interviewed me. Dean drove out here to see the condition of our road.

This is all really timely as we will be meeting with the Minister of Transportation and Infrastructure next week and this will put the road front and center. Of course our objective is at least to see better maintenance of our road. There is the safety issue too of course. Our ultimate goal and, I think Council agrees with me on this, is we want to see the entire road paved. That is our goal as I think that it would actually keep costs down a lot. I can't believe that it is cheaper to keep grading and fixing a road that keeps washing away.

Councillor Elder (verbal report)

Just to expand on the Mayor's report, there are 176 spots as your drive from Gold River to Tahsis on the right hand side where the road has washouts.

And in Lynda's letter they (Mainroad Contracting) said that they were working on these places where the road has washed away. I have yet to see one or had the chance to count the left hand side. So they are doing nothing.

Councillor Fowler (written report)

September 17, 2019 Fowler Report

When it rains, it pours...

Due to the fatal accident on the road to Bamfield on Friday; today I had the opportunity to speak to the press on CBC radio about FSR's (Forest Service Roads). I heard Lori Bennett too.

In the 2008 'no longer the road less traveled' report written by Roger Harris, the ombudsman of the non profit BC forest safety council, made 17 recommendations that have been largely ignored. It read 'promote it on one side, but then want to avoid responsibility for the road on the other.' Rick Coleman and Christy Clark both took swings at the natural Resource Road Act but now it is Scott Fraser NDP MLA, (Huu-ay-aht) Indigenous relations. The path to many First Nations are often near resource routes and it is prime time for the Province to take over maintenance of rural roads. Equity is what happens when we get the road completely chip sealed. Until then we will be pushing for more safety measures with signage at sharp curves, improved widening and advocate for a reasonably driveable maintenance program.

On another front, I also attended a webinar this afternoon called "Identification of Contaminated Sites - Policy Direction. There I learned about the regulatory process of high risk disclosure, certificates of compliance and rezoning exceptions. I have registered for another webinar for September 20, 2-3 for the BCCLA BC Civil Liberties Association, fresh voices motion #lostvotes. There are plans this week to get brood stock in the Burman River either (Sept 19-20) Thursday or Friday, meeting up at the Gold River dock at 8-9am for jet boat shuttle to the sea pens. I also expect to attend the meeting for the Nootka Sound Watershed Society (NSWS; September 25, 7pm) at the Ridgeview in Gold River and on Thursday September 19, 7pm at the recreation center to introduce Ted Olenek from BC Hydro as we talk about winter storms power outage preparations.

Hopefully I'll see you there.
respectfully submitted,
Sarah Fowler

Fowler/Elder: VOT 411/2019

THAT the Council Reports be received.

CARRIED

1 2020 Prime Minister's Awards for Excellence in Education

2 Disaster assistance for commercial salmon fishermen and allied workers

3 Leah Hollins, Chair, Island Health Board of Directors Re: Island Health Board of Directors Partnership Event

4 Recycling Council of British Columbia (RCBC) Re: Waste Reduction Week in Canada October 21-27, 2019

5 Observation of the UN International Day of Older Persons- October 1st (IDOP 2019)

6 Tahsis Community Garden Society Re: Composting Pilot Program

7 District of Sicamous Re: Letter of Support for Off-Road Vehicle Management Framework (UBCM Resolution No. B121)

8 Curt Kingsley, Deputy CAO/ Director of Corporate Services, District of North Saanich Re: UBCM Reception Sponsored by the Government of China

Llewellyn/Elder: VOT 412/2019

THAT these correspondence items received.

CARRIED

Llewellyn/Elder: VOT 413/2019

THAT item numbers 3 to 8 be pulled for discussion.

CARRIED

L3 Re: Island Health Board of Directors Partnership Event- Port McNeill October 10th, 2019

There was a brief discussion. Council gave direction to send Mayor Davis to this Island Health Board of Directors Partnership Event.

L4 Recycling Council of British Columbia (RCBC) Re: Waste Reduction Week in Canada October 21-27, 2019

Llewellyn/Fowler: VOT 414/2019

The Village of Tahsis hereby recognizes Waste Reduction Week in Canada October 21-27, 2019. As a municipality, we are committed to conserving resources, protecting the environment and educating the community. We recognize the generation of solid waste and the needless waste of water and energy resources as global environmental problems and endeavor to take the lead in our community toward environmental sustainability. We have declared October 21-27, 2019, Waste Reduction Week in the Village of Tahsis.

CARRIED

L5 Observation of the UN International Day of Older Persons- October 1st (IDOP 2019)

There was a brief discussion.

L6 Tahsis Community Garden Society Re: Comox Strathcona Waste Management: Remote Facilities- Composting Pilot Program

Kim Anderson, Tahsis Community Garden Society Director, had questions and concerns regarding the composting pilot program. It was clarified that the composting program was for the community not just for the garden society members. The TCGS is looking for community/ Village support. Mayor Davis suggested that a joint meeting be held with The Tahsis Community Garden Society, Comox Strathcona Waste Management and Tahsis Council to address the TCGS concerns directly and respond to Comox Strathcona Waste Management's demands.

L7 District of Sicamous Re: Letter of Support for Off-Road Vehicle Management Framework (UBCM Resolution No. B121)

Mayor Davis spoke briefly to this correspondence item.

ATV BC will have a booth at UBCM and that they have asked Council for a quote for their materials that they will be publishing.

L8 Curt Kingsley, Deputy CAO/ Director of Corporate Services, District of North Saanich Re: UBCM Reception Sponsored by the Government of China

Council discussed the issue raised in this letter.

M. New Business

None.

Subject: 2020 NOOTKA SOUNDER ADVERTISING OPPORTUNITY

Hi Mark,

We will be publishing the Nootka Sounder for for distribution in January, 2020.

This gives advertisers a full year of promotion in the Nootka Sounder throughout the Gold River, Campbell River and Comox Valley regions including the Comox Valley Airport.

Attached is the Rate Sheet for the 2020 issue of the Nootka Sounder which is distributed aboard the MV Uchuck III (6000 copies) as well as an additional 6500 in the Comox Valley and Campbell River airports, Parksville and Qualicum Beach InfoCentres and misc. tourist related locations on Vancouver Island.

As a current advertiser (and for your convenience) I've attached a proof of your 2019 1/6 page ad for approval or edits.

Please get back to me with confirmation that you intend to advertise in the 2020 edition of the Nootka Sounder and let me know if your ad is approved, edits are required, or that you will be sending a replacement press ready ad.

Advertising Opportunity Aboard The M.V. Uchuck III and beyond.

Nootka Sounder 2020 Rate Sheet

DISTRIBUTED January to December 2020

RATES & SPECIFICATIONS

Annual Circulation: 12,000

The "Nootka Sounder" can be read on-line year-round at www.getwest.ca/thenootkasounder

Circulation includes distribution on the M.V. Uchuck III (year-round) as well as high traffic locations throughout mid-Vancouver Island, including select **InfoCentres, Comox and Campbell River Airports**. This circulation is aimed at attracting more visitors to the Gold River area.

The Nootka Sounder is an informative newspaper about the M.V. Uchuck III and Nootka Sound, past and present. The Nootka Sounder is well read by the passengers aboard the M.V. Uchuck III. The Nootka Sounder includes the history of the region, its industries and its people and the coastal communities in the area. Nootka Sound Service's M.V. Uchuck III operates scheduled tourist runs to historic Friendly Cove, and locations throughout Nootka Sound, Esperanza Inlet and Kyuquot Sound.

2. Review and adopt of the Agenda – Motion to accept: Sarah 2nd: Amanda
3. Review and adopt of the minutes from May 29th 2019 meeting – Motion to accept: Amanda 2nd: Sarah
4. Review of action items from May 29th 2019 meeting -

Action Items: NEW ITEMS

Action	Who	Completed
Reach out to Dunlop Creek volunteers - fence being taken down Sunday June 2nd 2019	Sam	Done

Action Items: ONGOING ITEMS

Action	Who	Completed
Terms of Reference	Kent/Sam/Kadin	Ongoing
Inquire to Village of Tahsis about bridge at Pete's Pond tributary - any plans to fix?	Sarah Fowler	Ongoing
Assess pump house ramp for Gold River egg take - take a look at LGR ramp	Kent, Roger, Kadin	Ongoing

5. Old Business:

a. **Fisheries Stewardship Coordinator Report**

- website is coming together
- green crab open house took place - 8 attendees
- discussed finding sea lice in some sets in the Tahsis beach seine

Roger: should quantify the area swept in tahsis beach seines

Roger: has concerns about sea lice dumping.

Motion to write a letter about sea lice dumping to Environment Canada and

Rebecca Reid: Roger 2nd: Sarah, Ken

b. **Fisheries Habitat**

CRF - Paul, Roger and Sam finishing CRF contribution agreement.

Roger: we'll need to focus our efforts on riparian areas - won't have funds to treat entire proposed areas.

Roger: BC Timber has \$500 000 to spend on the Burman River. Roger will try to get them to do some habitat banking/riparian area sales.

Roger: presented the table with 2 papers to review

c. **Hatchery Updates**

i. **Conuma**

Mike: Only fish remaining on site are coho smolts to be clipped in early August. Net pen invoice is ready, will be picking it up soon. Some extra funds left over to be spent on new netting.

Mike: Burmam River will have a new protocol for broodstock collection to preserve the integrity of wild fish on the Burman River. Plan is to cull strays from other rivers. Will also perform PBT analysis on all chinook at Conuma River Hatchery.

Roger: We'll need to start talking about a mark selective fishery in A25.

Roger: Need to meet early (August) to plan collaborative broodstock collection.

ACTION: Sam to set a meeting (Last 2 weeks of August) for planning between DFO,NSWS,MMFN in regards to Gold and Burman Broodstock Collection.

ii. **Tahsis**

Frank: released 319 000 chinook in both rivers, including a 30 000 heli drop in upper river. TSES received funding from PSF for surface water upgrades - will be able to mark their own fish.

iii. **Zeballos**

Laura: talked to Stacey - she is still in conversation with the school district. Laura will be going to Zeballos on Wednesday and will have more information then.

Roger: Talked with the Village of Zeballos - they would like to be involved with NSWS meetings. Need to make it easier - teleconferencing?

Motion to spend \$300 on suitable teleconference unit: Roger 2nd: Amanda

- d. **Fisheries Management/Area 25 Harvest Committee Updates**
Nothing to report
- e. **Mass Marking**
Nothing to report

6. New Business:

- a. TFL 19 AAC
Roger: Does the NSWS want to be involved? The deadline for input is August 6th.

ACTION: Roger and Sarah to draft input about the TFL 19 review.
- b. McKelvie Matters
Sarah: presented an invitation from the Tahsis Poets Circle for lunch and dinner to support the Tahsis Inlet Anthology
- c. Conuma Hatchery GL Positions
Mike: looking for staff for the fall broodstock season
ACTION: Sam to post job postings.

7. Correspondence:
Nothing to report.

8. Financial Report:

Sam: read out financial report.

Motion to accept the financial report: Sarah **2nd:** Amanda

9. Next Meeting:

Wednesday September 25th, Location TBD

Enhancement Planning Meeting - TBD.

10. Adjournment:

Motion to adjourn: Amanda **2nd:** Sarah

September 20th , 2019

Hon. Doug Donaldson, Minister of Forests, Lands, Natural Resource Operations and Rural Development
Room 248,
Parliament Buildings,
VICTORIA , B.C.
V8V 1X4

Dear Minister Donaldson,

I was happy to hear your recent announcement, on radio and television, offering help for now out-of work mill workers. I live in Tahsis and am very aware of what happened here in the not-so-distant past. Residents of this community went through much the same experiences that are now, sadly, devastating interior communities. After shock and disbelief, as the mills in Tahsis were dismantled and shipped elsewhere, most workers in this community also left, in search of new job opportunities.

However, some stayed, especially those who already had skills that could be put to alternative uses. Some, for example, were able to contribute to an embryonic tourist trade by helping potential purchasers of “holiday” homes. These ex mill-workers could help with carpentry, electrical and plumbing work that was wanted by buyers with new and different expectations. Others were employed by “public works” and helped to make the village more attractive with appropriate landscaping. Such men, (and many women) contributed to the continued survival of this now much smaller community, even though few were anywhere near as well off, financially, as they were before the well-paying mill jobs disappeared. It was a very hard time of adjustment, as you obviously appreciate, and many of these ex-mill workers still look back with fondness to the “good old days”. However, offering alternative skill development opportunities, as you are now doing, is clearly a crucial first step in this so challenging time for ex-mill workers.

However, I think it is really vital that as well as helping newly out-of-work individuals you give some thought to those who have already found alternative ways of making a living, such as in a (hopefully) still developing tourist industry.

Here in Tahsis we find ourselves in conflict with the very industry that led to the town’s development in the first place, (as well as nearly to its demise.) We are well aware that the forest industry still operates in our area and are well used to logging trucks slowing us down on the road to this community. We are less happy about the state of our access road (which is, of course, also the logging road) as it is frequented by such heavy trucks that it requires continual and, unfortunately very inadequate, maintenance. However, the latest plans by Western Forest Products could be the straws that break this camel’s back!

Western Forests Products are now intending to log in a totally new area for them. They plan to log in an old-growth rainforest, adjacent to the village itself. The McKelvie River flows through this forested valley and Western's plans also take them close to this river. At present this valley is extremely difficult to penetrate because, as is usual with old growth, temperate, rainforests, up to 50 % of the wood in the forest is already dead. Most of this wood, as is also usual, is on its way to, or already a part of, the tangled mass on the forest floor. Western are relying on "lidar" images for their plans, as access is so difficult. They have not mentioned, at the several meetings they have had with our council, how they plan to remove such an enormous quantity of dead material, where much of the top layer is still in the form of huge, dead, but only partially decayed, trees. Their plans show that quite an extensive road will be pushed into the forest and, I assume, they will also have to clear more material out of the way to reach the still living trees required for timber.

It seems unlikely, to me, that a timber company would have much use for this kind of dead wood that, in their view, must be so far from perfect. However, the wood that they may not value, but will need to remove, is already performing several extremely valuable services for our village. It does this by absorbing and storing gallons and gallons of winter rainwater. I have read studies, from the U.S., that have measured how downed logs increase their water storage capacity as they decay on the ground. So for us such downed wood actually becomes more valuable the more it decays. This rainwater "reservoir" provides irrigation for the still living trees in the rainforest, which is particularly valuable during summer drought. If this amazing natural storage system is interfered with, by removing large sections of it, another consequence is likely to be a flood the like of which we have never before encountered. This is because an uncalculated amount of rainwater would no longer be absorbed during the increasingly heavy rain events we are now experiencing. Western's new access road, if they go ahead and build it as planned, could, in fact, become a new exit route for much of this now excess rainwater.

We have already been told of risks we run as many of our homes are built on the floodplain of the Tahsis River. (The McKelvie River joins the Tahsis just before they jointly flow through the village proper). With climate change, the risk of flooding is already greatly increased for us, as a recent study has confirmed. If Western continue with their logging plans, all thoughts of any future for Tahsis, let alone for tourism development here, seem somewhat doomed!

Not only is the present McKelvie rainforest crucial for flood control in the winter and irrigation in the summer, but it is also the source of our drinking water. The wonder of the untouched (by commercial interests) rainforest has the potential to play an important part in future tourism opportunities and the tourism jobs this could provide. In its present form, the McKelvie rainforest is also helping to protect us from the impact of forest fire.

As you must know, old growth, temperate, rainforests are much less flammable than the planted trees that replace them. The dead wood acting as a massive "reservoir" of winter

rain on their forest floors, no doubt has a great deal to do with this fire resistance. With increasing rates of forest fire predicted for our province's future, this would seem to be a very good reason for saving more, intact, old growth rainforests. Yet we are presently still cutting into them. By making more and more of them less and less effective at resisting forest fire, we are destroying a vital defence system. Had most of our west coast rainforests been left intact, the fires we had in this area last summer would probably not have happened at all. If caused by lightning they might have taken the form of small, very limited, canopy fires, which would likely have extinguished themselves quite quickly, had the original rain forest vegetation still remained on those sites. Really we should be researching how we can learn from and maybe even try to mimic this ability of old-growth temperate rainforests to resist fire. It really is time to re-think our current practices in forest management before it is too late.

I know that multiple regulations are already in place regarding procedures for logging companies to follow. Unfortunately, many of those procedures have been developed as a result of serious mistakes that the industry has made during the many, many years it has been in operation. I really do not think that ex-mill workers still in Tahsis or those of us who optimistically moved here after the mills closed down, will be much comforted by the thought of some new regulation possibly being developed, as we pack up our belongings for the last time after some "unexpected" disaster has done its worst here.

I'm glad that you are thinking about retraining ex mill workers, it's certainly a step in the right direction, but the forest industry itself needs to be re-examined. It really is not now appropriate to be cutting trees down in our vital fire-resistant old growth temperate rain forests. Fire looms as such a threat for us in this frightening new world of increasing climate change. When such cutting also threatens the livelihood, and the very existence, of a small community that has worked so hard to recover from the closure of its mills, allowing this to happen is completely wrong, and should be unthinkable.

Very much hoping to hear from you,

Sincerely,

Judy Burgess

The payphones being removed are highlighted in yellow. The remaining payphones will be changed to a Charge-A-Call style payphone. This type of payphone doesn't accept any coin. The user can make calls via, credit card, collect calling, 3rd Party billing, pre-paid cards & calling cards. The Charge-A-Call payphone is less problematic and that is why it is being used. The only option I see for the recreation centre is Axsit system I explained, it is cheaper than a conventional business line from TELUS with toll block. Check out Axsit.ca for more details.

If you have any questions, don't hesitate to contact me.

VILLAGE OF TAHSIS

Report to Council

To: Mayor and Council

From: Sarah Jepson, Director of Recreation

Date: September 23, 2019

Re: Joint Initiative with Nootka Sound RCMP- Positive Ticketing Program

PURPOSE OF REPORT:

To seek Council consideration of a proposed joint initiative between the Nootka Sound RCMP Detachment and the Village of Tahsis.

Options/Alternatives

1. Approve this program.
2. Do not approve this program.
3. Any other options or alternatives that Council deems appropriate.

BACKGROUND:

Positive Ticketing is the general term used to describe a program wherein police officers' issue "tickets" to individuals, usually youth, whom are observed to be performing socially positive behavior. Examples of the types of conduct that might result in a ticket being issued are:

- practicing personal safety such as wearing bicycle helmets;
- doing various good deeds, such as helping a neighbor
- participating in community activities;
- demonstrating community pride (e.g., picking up trash)

Under the proposed program in Tahsis, tickets issued by Nootka Sound RCMP members would be redeemable for rewards at the Recreation Centre. Youth could also be nominated for a ticket by a member of the public by completing a nomination form.

The rewards will be prizes worth no more than \$5 each.

The purpose of this program is to simply connect and develop supportive relationships between the youth and RCMP.

The RCMP and independent municipal police departments have adopted some form of this program in various municipalities in British Columbia.

POLICY/LEGISLATIVE REQUIREMENTS:

No personal information about a person receiving a ticket will be recorded by the RCMP or held by the Tahsis Recreation Centre so there are no Freedom of Information and Protection of Privacy Act implications.

FINANCIAL IMPLICATIONS:

The program cost is projected to cost \$75.00/month and will balance the additional expenditure within your overall budget.

Re: UBCM Community Emergency Preparedness Fund – Volunteer & Composite Fire Department Training & Equipment

PURPOSE OF REPORT:

To consider applying for a Community Emergency Preparedness Fund (CEPF) Volunteer & Composite Fire Department Training & Equipment grant from the Union of BC Municipalities (UBCM) to enhance the wildfire suppression capacity in the Village of Tahsis by purchasing a structural protection unit (SPU) and associated equipment.

OPTIONS/ALTERNATIVES

- 1. THAT Council support the submission of an application to the Community Emergency Preparedness Fund (CEPF) Volunteer & Composite Fire Department Training & Equipment and agree to provide overall grant management.
2. THAT Council not support the submission of an application to the Community Emergency Preparedness Fund Volunteer & Composite Fire Department Training and Equipment; or
3. Decline to provide a resolution

BACKGROUND:

The CEPF is a suite of funding programs intended to enhance the resiliency of local governments and their residents in responding to emergencies. The grant program can contribute up to 100% of the costs of eligible activities to a maximum of \$25,000. Local governments can submit one application per intake and the deadline for the next intake is November 19, 2019. A requirement of this grant is a Council resolution indicating support for the current proposed activities and willingness to provide overall grant management.

POLICY/LEGISLATIVE REQUIREMENTS:

There are no policy or legislative requirements associated with the grant application. Should the Village receive grant funding, procurement of equipment would be done in accordance with the Village’s procurement policy.

FINANCIAL IMPLICATIONS:

The grant program can contribute up to 100% of the costs eligible activities to a maximum of \$25,000.

RECOMMENDATION:

Option 1

Respectfully submitted:

Mark Tatchell
Chief Administrative Officer
