

## **WATER LEAK DETECTION PROJECT**

Beginning April 13<sup>th</sup>, Village crews and Teale Utility are conducting a system-wide investigation of all water mains and connections to identify the sources of water leaks. You may see crews working along local roads and boulevards.

Although the Village has improved water conservation and the associated energy savings through infrastructure repair and replacement, the water distribution system continues to experience leaks. This project will identify the location of the leaks and the relative priority for replacement.

For further information please contact the Village office at (250)934-6344 or [reception@villageoftahsis.com](mailto:reception@villageoftahsis.com)
