

BEST LOCATIONS FOR NEW OUTDOOR BENCHES AND SHELTERS HAVE YOUR SAY!

The Village is building 8 benches and 4 shelters to make the Village more walkable and to implement a recommendation from the Age Friendly Action Plan. Funding for the project is through a \$82,800 provincial government grant. Straight Grain Construction in Gold River is the contractor for the project.

Village Council is looking for public input on the best locations for the benches and shelters. Some suggested sites are on the Google Earth map below. Please reply with your suggestions or email reception@villageoftahsis.com by May 31st.
