Proposal

To rezone to allow for the permanent residency of Recreational Vehicles and Tiny Homes within the existing mobile home park.

Official Community Plan

- Property is designated Residential under the OCP

Key Considerations

- Housing Affordability Policies
- Rental Housing Policies
- Residential Designation Policies
- Falls within the Anthropogenic Hazard DP area

Zoning

- Property is zoned RM-2

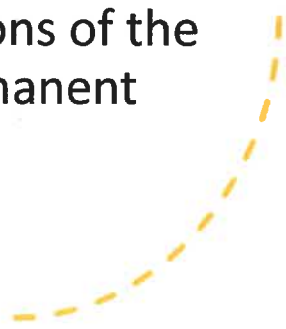

Principal Uses	Accessory Uses
Mobile homes	<ul style="list-style-type: none"> • accessory building or structure • community care facility • home-based business • professional occupation • urban agricultural use
Minimum Setbacks	
<p>A seven point five (7.5) metre minimum yard shall be maintained along all exterior property lines in a mobile home park.</p> <p>No mobile home shall be located within seven (7) metres of another mobile home.</p> <p>No part of any mobile home, or any addition or accessory building shall be located:</p> <ol style="list-style-type: none"> within two (2) metres of an internal access road right-of-way or common parking area; within two (2) metres of rear and side mobile home space lines. 	
Maximum Density	
Mobile home park	20 dwelling unit per hectare
Maximum Height

Addition to a mobile home (exclusive of carport and/or patio)	20%
Minimum Lot Size and Lot Frontage	
Minimum area	325 square metres
Minimum frontage when abutting an internal roadway right-of-way	12 metres
Minimum frontage when abutting a cul-de-sac or panhandle mobile home space	6 metres (unless otherwise approved by Council)
Conditions of Use	
<p>4) Mobile Home Space/Lot</p> <ol style="list-style-type: none"> each mobile home space shall be clearly marked off by suitable means; all mobile home spaces shall be properly drained, clearly numbered and have a clearly discernible mobile home pad of compacted gravel or be surfaced with asphalt or concrete pavement; no more than one mobile home shall be located on a mobile home space. <p>5) Street Parking</p>	

Key Considerations

- Should amenities be required as a condition of zoning?
- Should there be a maximum number of RVs/Tiny Homes versus mobile homes permitted?
- How should “permanent” residency be confirmed and controlled?

Summary

- The proposal is consistent with the OCP.
 - The proposal would enable the use of RV and similar design temporary housing options (Tiny Homes) for permanent residency.
 - Council can require conditions of the rezoning to encourage permanent residency.

Report to Council

To: Mayor and Council
From: Chief Administrative Officer
Date: September 8, 2023
Re: Tahsis Flood Protection Improvement Project – Phase 2, Change Order
(riverbank footpath)

PURPOSE OF REPORT:

To provide Council with scope details, cost estimate and financial implications for this change order.

OPTIONS / ALTERNATIVES

1. Approve the change order to construct the footpath as per the proposed quantities supplied by Upland.
2. Request a cost estimate from Upland to construct a fully wheelchair accessible footpath along the riverbank.
3. Do not approve the change order to construct the footpath.
4. Any other option that Council deems appropriate.

BACKGROUND:

At its May 23rd committee of the whole meeting, Council passed the following resolution:

Joseph: COW 031/2023

THAT the reinforced concrete wall and slab for the metal stairs over the dike for public access to the Tahsis River Front be included in the scope of the tender as per the original tender.

CARRIED

The cast-in-place wall and metal stairs are included in the Village's contract with Upland. This is not an optional item.

Council did not discuss or consider construction of a footpath along the riverbank at the May 23rd meeting (as per staff's review of the meeting transcript).

Subsequently, the Mayor asked that the project scope be revised to include a footpath along the riverbank. It has also be recommended that the path be wheelchair accessible (which is not in the current scope).

Upland supplied the following scope and budget for constructing the footpath:

- \$31,000 for 100 tonnes of 3” fractured quarry rock (for path construction over riprap areas)
- Construct trail between section 1 and 2 (Cook St. to Quadra St) which would tie the rip rap zones into the stairway at Brabant Crescent (\$22,000).
- Trail construction includes grubbing the existing grass, supply and installation of 150mm of blue chip fines approximately 1m in width.

No construction of the path has begun.

POLICY/LEGISLATIVE REQUIREMENTS:

1. Procurement Policy No. 2010, 2018

FINANCIAL IMPLICATIONS:

The current projected cost overrun for this project is \$339,000. The project cost overrun would be \$392,000 if this change order, as scoped, is approved. Some savings are expected as the excavation costs are lower than budgeted, however, those savings have not yet been calculated. Staff hope to have an updated project budget for Council at the September 12th committee of the whole meeting.

The Village’s ability to fund future contingencies in this project and other capital projects is reduced if more or all of the GCF fund dollars are committed. The Village has other sources of revenue to fund capital projects, which are included the 5 year rolling capital plan which forms part of the financial plan bylaw adopted by Council.

The cost overrun for this project is funded by the Growing Communities Fund (\$650,000). Most of the GCF has been committed for current planned projects.

One time Grant GCF	\$ 650,000
<u>Use of funds Earmarked by Council</u>	
Projected Cost overruns Community Pier & Dock	\$ (200,000)
Projected Cost overrun - Flood mitigation Phase 2	\$ (339,000)
Flood pump Shelter	\$ (15,000)
Purchase of parcel of Land for Flood mitigation Phase 3 & Waste Water Treatment	\$ (47,000)
Remaining Funds	\$ 49,000

STRATEGIC PRIORITY:
